

## 2018 Domestic Violence Prevention Month Resources

The “Know the Signs” campaign is designed to help service members, military spouses and intimate partners build, maintain or strengthen their relationship and prevent domestic abuse. The Family Advocacy Program and Military OneSource are working together to help our audiences understand the signs of healthy, unhealthy and controlling behaviors and learn ways to improve relationships — through information, skill-building resources, counseling support and more. The campaign focus is to reach people as early in the relationship lifecycle as possible, and invite them to think about their relationship, and consider whether it could be classified as healthy, unhealthy or abusive.
