

“Bring a Book: Supporting Military Children through Literacy”

The DoD/USDA Family Resilience Conference Service Learning Committee has partnered with Military Child Education Coalition (MCEC) to help raise awareness of how local communities can be involved in supporting military children through literacy. We encourage you to explore the reading list to identify a book to purchase and donate at the Family Resilience Conference to support literacy and help youth of military families. This list is provided as a guide; other age appropriate books that could provide support to military youth are appreciated.
