Programs and Services

While moving is always stressful, your stress can be drastically reduced if you take full advantage of the information, education, and personal assistance provided to you by the Relocation Program. This is the place to find answers and get referral to other installation resources as well as assistance with in-transit emergencies. The most important thing you can do to ensure a smooth move is to start planning early using the many Relocation Assistance program services and tools available.

Individual PCS Planning -- Most relocation programs offer one-on-one consultation for anyone needing assistance. In particular those making their first military move, first overseas move, or those with challenging and complex situations such as special needs family members or financial problems should call the Relocation Program for an appointment.

Military Installations and Plan My Move -- For managing and planning your move, use these two DoD sponsored web-based relocation tools with information on over 250 installations worldwide. You can estimate expenses, find the forms necessary for housing and household goods, keep a calendar of events and take other necessary actions to ensure a successful move.

Loan Closet -- Basic household goods items are available to borrow while waiting for your personal property pre-departure or upon

One of the best ways to minimize your out-of-pocket expenses is to set up a budget for your move. This **Relocation Budget Planner** is the secret to staying in financial control throughout your move. It is a good idea to take it to your relocation/financial counselor at the Family Center for professional assistance.

After talking to your relocation/financial advisor, enter the estimated benefits and entitlements due to you in Column A. Enter your estimate of your total cost for each item in Column B. The spreadsheet will calculate the difference. If the number in column C is **(red)** it means your budget will leave you with "out of pocket expenses" that you will have to pay. Knowing this in advance can help you reduce your estimated costs or help you plan for the out of pocket expense.

Keep your Relocation Budget Planner up to date as estimates become actual costs, and as your assumptions change. This will help you stay on top of your relocation finances. For example, reimbursement you receive for DITY or personal moves, as they are now called, is considered taxable income.

Scam Targets Military Families

Moving 101

Your moving experience begins when you receive your Permanent Change of Station (PCS) orders. The information below will give you a head start on what to expect and who you need to contact when you receive your first set of PCS orders.

Permanent Change of Station (PCS) Allowances and Entitlements

There are various allowances and entitlements associated with most CONUS and OCONUS moves. DO NOT ASSUME that you will receive any of these allowances. Allowances change periodically so ensure you check with the finance office on your installation to determine the exact amount of your allowances and entitlements. Further, the Per Diem Committee's [website](#) is the official source for the most up-to-date changes to allowances and entitlements.

Housing Office

Your Installation Housing Office can help you with:

- Determining your housing allowances and entitlements
- Determining availability of government housing at your new location
- Getting help with finding local community housing at your new location
- Finding out about arranging temporary lodging

Household goods

Household goods (HHG) include items associated with the home and all personal effects belonging to a member and dependents on the effective date of the member's PCS or TDY order that legally may be accepted and transported by an authorized commercial transporter. HHG also include: professional books, papers, and equipment (PBP&E), spare POV parts and a pickup tailgate when removed, integral or attached vehicle parts that must be removed due to their high vulnerability to pilferage or damage (e.g., seats, tops, winch, spare tires, portable auxiliary gasoline can(s), and miscellaneous associated hardware), vehicles other than POVs
