

It's Your Duty – Know the Importance of Accounting for Yourself During a Disaster or Pandemic

What is the Personnel Accountability and Assessment System?

The Personnel Accountability and Assessment System is a secure and safe way to share important information and track the status and whereabouts of Department of Defense-affiliated personnel and their family members during disaster or pandemic situations.

Who uses PAAS?

- ➔ Service members: active duty, selected reserve, active reserve and National Guard
- ➔ DOD civilians, nonappropriated fund and Navy Exchange employees
- ➔ Overseas contractors
- ➔ Foreign nationals
- ➔ Transitional personnel: retired or separated dependent family members

Army: ADPAAS <https://adpaas.army.mil>
Navy: NFAAS <https://navyfamily.navy.mil>
Air Force: AFPAAS <https://afpaas.af.mil>
Coast Guard: CGPAAS <https://cgpaas.uscg.mil>
Combatant Command: COCOM PAAS <https://cocom.dc3n.navy.mil/>
Fourth Estate: FEPAAS <https://fepaas.whs.mil>

There are currently **5 million+** people using PAAS globally

Note: Total represents the number of users of PAAS as of May 1, 2020, including service members, DOD civilian employees and their family members.

What can PAAS do for you during disasters and pandemics?

DOD-affiliated personnel and family members:

- ✓ Report whereabouts and needs after a disaster event
- ✓ Report daily duty status, work status and location during a pandemic
- ✓ Request assistance from family support programs to help with event-related needs
- ✓ Receive important safety information, resources and other assistance

Commanders and leaders:

- ✓ Track status and location of personnel and families
- ✓ Assess daily mission readiness
- ✓ Provide important safety information
- ✓ Identify personnel and families that need help
- ✓ Share resources to help personnel and families

What tools does PAAS use to help account for all personnel and family?

Some versions of PAAS include one or more of the following features:

Personnel Accountability collects and tracks status and location of individuals after a disaster event.

Needs Assessment triages and collects assessment survey's for family support program case managers based on 19 categories of need for an active event.

Daily Muster Tool collects and tracks daily work status and location confirmations by individuals, or their supervisory staff, providing start dates and projected end dates of availability.

Personnel Status Tracker provides pandemic-related accounting so personnel can self-report health and work status. It automatically tracks and sends personnel health and work status data for leaders to assess the impact of a pandemic on the force.

AtHoc Alerts allow push notification and status updates through SMS text, email and phone calls.
