Providing policy, tools and resources to further enhance the quality of life of service members and their families.

Updated January 2015
Introduction

The purpose of the Office of the Deputy Assistant Secretary of Defense, Military Community and Family Policy Quick Reference Guide is to provide high-level facts and statistics about each of the quality of life directorates and program areas supported under Military Community and Family Policy.

This guide provides targeted access to key demographics regarding the service members and families we support and a complete listing of the online resources available through Military Community and Family Policy and its affiliates.
Military Community and Family Policy
Mission, Vision and Values

Military Community and Family Policy is committed to strengthening personal readiness through policy oversight and management of programs and resources for the military community to maintain a mission ready force.

Mission
Empower and support our military community and families to thrive.

Vision
A high performing, tenacious team: people-focused, people-centric, people always

Touchstone values
- Mission-focused
- Collaborative
- Flexible
- People-centric

Strategic Vision
A military community prepared for the unique challenges of military service

Strategic goals
- Align and prioritize program resources with the needs of the military community.
- Communicate critical information to the military community, key stakeholders and community partners.
- Build collaborative partnerships and leverage resources to optimize Military Community and Family Policy core priorities supporting the military community.
- Improve the well-being and resiliency of the military community.
- Empower and align human capital in the military community to establish the resilience and fulfillment that positively impacts readiness and well-being.
Establish the social capital, internal and external to the Department of Defense, that synchronizes and aligns the multiple efforts surrounding caring for and empowering the military community.

Create the global delivery system that will more effectively and efficiently impact quality of life for the military community.

• Department of Defense Survivor Survey
Family Advocacy Program

The Family Advocacy Program is available on military installations where families are present. It addresses child abuse and domestic abuse in the military community through public awareness and prevention, early identification, a comprehensive coordinated response and safety planning, counseling and support to victims and treatment for offenders and other effected family members, when appropriate. The program provides classes, workshops and seminars covering various topics including:

- Couples communication
- Anger management
- Stress management
- Effective parenting
- Conflict resolution

Children and Youth

- More than 760 child development program facilities worldwide provide approximately 162,000 child care spaces.
- There are approximately 3,300 family child care homes.
- Child development programs serve approximately 200,000 daily through full-day, part-day and hourly programs.
- Ninety-seven percent of eligible centers are nationally accredited.
- More than 29,000 staff are employed in child development and youth programs, more than 10,700 of whom are military spouses.
- Fees range from $58 to $145 per week based on total family income.
- Deployment-related respite child care is provided by the services and through a Military Community and Family Policy partnership with the YMCA for families of deployed and independent duty personnel.
- There are approximately 300 youth and teen centers worldwide.
  - They serve more than 470,000 youth through a variety of educational and recreational programs on an annual basis.
  - 3,200 military youth participated in a variety of camp programs in 2014 at little or no out-of-pocket expense.
Commissaries

- More than 181 sites hosted the 2012 Summer Reading Program with 13.2M minutes read.
- To date, more than 67,000 no-cost YMCA family memberships for several categories: spouse and family of deployed Reserve Component members, relocated spouse and family of deployed active-duty member, member and family assigned to an independent duty location and member and family assigned to a community-based warrior transition unit; additionally, respite child care is available for all categories at participating YMCAs and in 2014, more than 10,000 children participated.
- The Department of Defense Morale, Welfare and Recreation Online Library provides downloads of audio and ebooks and access to current databases at no cost; more than 90M online uses in 2013.
Department of Defense and Department of Agriculture Partnership

The Department of Defense and United States Department of Agriculture partnership leverages the resources of the Land Grant Universities Cooperative Extension Program in support of military families, children and youth. The partnership focuses on three core areas — workforce development, strengthening programs for service members and their families and increasing community’s capacity to support military families — through efforts like those described below.

- **Clearinghouse for Military Family Readiness** – The Pennsylvania State University’s Clearinghouse for Military Family Readiness focuses its efforts on evaluating and improving programs that support military families. The Clearinghouse provides helping professionals (both military and civilian) an accessible online tool for obtaining objective, detailed information on practice guidelines, tools and processes, and to further their dissemination, implementation and use. Additionally the Clearinghouse is heavily engaged in supporting the Department of Defense’s efforts to combat childhood obesity and developing a comprehensive parenting education curriculum.

- **Military REACH** – The University of Minnesota has developed Military REACH which focuses on the relationship between research and outreach. Military REACH’s efforts include professional development in the areas of youth development and research, as well as the development of a comprehensive library of research focused on service members and their families.

- **Military Families Learning Network** – This learning network, housed on eXtension.org and lead by teams of Land Grant University professors and researchers, is made up of Cooperative Extension family specialists and military family service professionals from the Department of Defense, service branches and non-governmental organizations. It serves military family service professionals through engaged online communities, which identify and make use of the highest quality, best practices, research- and evidence-based information, educational and curriculum materials and programming activities and efforts. The primary concentration areas for the Military Families Learning
Network are personal finance, family development, military caregiving, nutrition and wellness, military family life transitions, community capacity building and network literacy.

- **Military Internship Program** – Purdue University’s Military Extension Internship Program is an opportunity for college students to gain practical work experience in child development, school-age and youth programs. Interns work on military installations around the world for 10 weeks to six months and receive a broad range of experiences. Through the fall of 2013, more than 300 interns were placed working on military installations in military child and youth programs.

- **Project Y.E.S. (Youth Extension Service)** – North Carolina State University’s Project Y.E.S. is a national service program that engages college students in service to meet the needs of military families facing deployment. Interns help expand resources around the Yellow Ribbon Program and camps for military youth. They are trained in leadership, facilitation, programming and evaluation in order to offer high quality, educational program opportunities for military youth whose loved ones have deployed.

- **Virtual Child Care Lab School System** – Ohio State University’s Virtual Child Care Lab School will serve military child care programs with professional development and training opportunities focused on current issues experienced in child care settings. The Virtual Lab School will allow for Department of Defense child care professionals around the world to enter the system and develop customized training plans to meet their individual needs.

- **Special Needs and Exceptional Family Member Programs**
  - University of Minnesota conducted two research briefs for the Office of Community Support for Military Families with Special Needs. The first one, “Respite Care for Families with Special Needs,” examined respite care benefits including the availability and accessibility of respite care in the civilian sector and in military-impacted communities. The second research brief, “Sports and Recreation for Children and Youth with Developmental Disabilities,” contained a review of sports and recreation programming, overview of common barriers and discussion of best practices for adapting the
physical and institutional environment. Instructional styles and program activities to meet the needs of young people with developmental disabilities was also provided. The brief concludes with a summary of current practices within the department, implications and suggestions for future research.

Cornell University has been working in conjunction with the military services to develop process and outcome measures for the Exceptional Family Member Program family support services. Currently, there are no common metrics or common methods of collecting customer feedback/satisfaction regarding the Exceptional Family Member Program family support services. This project will provide the Department of Defense and the military services with a standardized method for collecting such data and enable them to determine need for program adjustments and enhancements to better assist military families.

Relocation Assistance Program

- The program was created by Public Law 101-189 (1988) and implemented by Department of Defense Instruction 1342.22, “Military Family Readiness,” with the Office of the Secretary of Defense providing funding to the services to operate the program.
- Relocation crosses multiple facets of Military Community and Family Policy including financial readiness, special needs, child care, spouse employment, education and family advocacy.
- Relocation personnel specialists are located in Military and Family Support Centers at military installations worldwide, providing personal assistance to members and families.
- The Military OneSource website hosts two applications that assist families in the relocation process: MilitaryINSTALLATIONS and Plan My Move.
- The eSponsorship Application and Training supports service members assigned the responsibility of unit sponsorship.
Voluntary Education

• The program offers assistance to service members in planning and paying for their college education.
• Counselors provide guidance and assistance on postsecondary education programs and eligibility requirements.
• The Department of Defense supported 287,000 service members who took 874,000 college courses and earned 55,000 degrees or certifications.
• The program supports 204 education sites worldwide including EUCOM (Europe proper), CENTCOM (Afghanistan, Kuwait, Qatar, Sinai, Djibouti, Bahrain and Saudi Arabia) and PACOM (Japan, Okinawa, Korea, Guam, Thailand, Kwajalein Atoll, Australia, Diego Garcia and Singapore).

Office of Strategy and Innovation

• The Office of Strategy and Innovation is responsible for adopting and disseminating leading practices throughout Military Community and Family Policy. It routinely engages with a wide array of Department of Defense and commercial sector organizations to ensure that programs in the Military Community and Family Policy portfolio remain relevant, agile and are delivered in ways that meet customers’ needs and preferences.
• The Office of Strategy and Innovation is action oriented and provides Military Community and Family Policy with an organic strategic capability.
Military Community Outreach

The Military Community and Family Policy Office of Military Community Outreach is responsible for a wide range of activities including communications, online community management, technical support, Military OneSource services and confidential, non-medical counseling delivery, including both Military OneSource and the Military and Family Life Counseling Program.

USA4 Military Families

• The USA4 Military Families initiative, worked through the Department of Defense-State Liaison Office, engages state leaders on the needs of military members and their families that are within their purview. Currently, efforts are being focused on the following 10 key issues (as approved by the under secretary of defense for personnel and readiness), which promote the well-being of service members and their families:

1. Facilitate service members receiving licensure and academic credit for military education, training and experience.
2. Facilitate military spouse career transition through licensure portability and eligibility for unemployment compensation.
3. Support development of veterans treatment courts open to eligible veterans and service members throughout the state.
4. Increase access to quality, affordable child care for military families.
5. Promote consumer protections and enforcement of the predatory lending regulation.
6. Allow service members to retain their earned priority for receiving Medicaid home and community care waivers.
7. Improve absentee voting for military members and their families.
8. Waive required waiting time to establish residency for separating service members to obtain in-state tuition rates.
10. Create state-wide memoranda of understanding between the Department of Defense and the state child welfare agency to standardize relationships.

• Details of all state legislative activity across the 10 key issues can be found at http://www.USA4MilitaryFamilies.dod.mil.

• Additionally, the State Liaison Office continues to work with states on important issues that have previously been on the list, namely:
  – State approval of the Interstate Compact on Educational Opportunity for Military Children
  – Changes in family law to ensure deployment separation does not determine child custody decisions
All 50 states have joined the Interstate Compact on Educational Opportunity for Military Children, helping to minimize school disruption for military children during military-related moves.

Thirty-nine states have introduced legislation addressing the best practices or adopted the best practices to streamline occupational licensing across state lines.
