01.2 Logo - Minimum Size

Width = 131px

Use the measurement here as the absolute minimum size the logo can be shown and still maintain legibility. Use the pixel resolutions for screen-based presentations.

01.3 Logo – Minimum Margin of Clearance

To preserve the integrity of the logo, always present the logo artwork with minimum clear space intact. Minimum clear space on all sides of the logo is equal to half the height of “EFMP & ME.” Do not place text or other design elements within this minimum clear space.

01.4 Logo – Improper Use

Use the artwork and colors as provided.
Do not alter the logo artwork in any way.

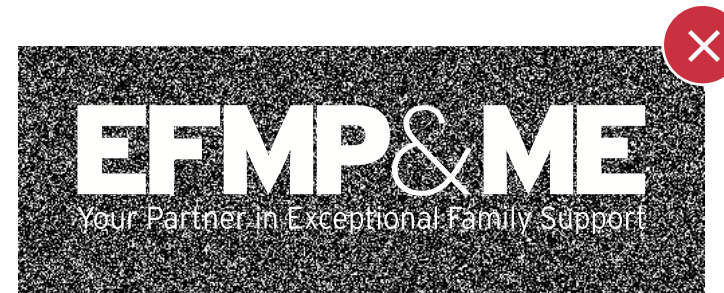

Your Partner in Exceptional Family Support

Do not remove, reposition, crop or obscure any part of the logo.

Do not change the color(s) of the logo.

Do not apply the logo to visually competitive backgrounds or patterns.

Photo selection shouldn't feel staged, posed or cliché like commercial stock photography. It should depict military families in a realistic, authentic way.

Typically any personally identifying features, such as name tags or unit patches, should be digitally removed to protect the identity of the individual.

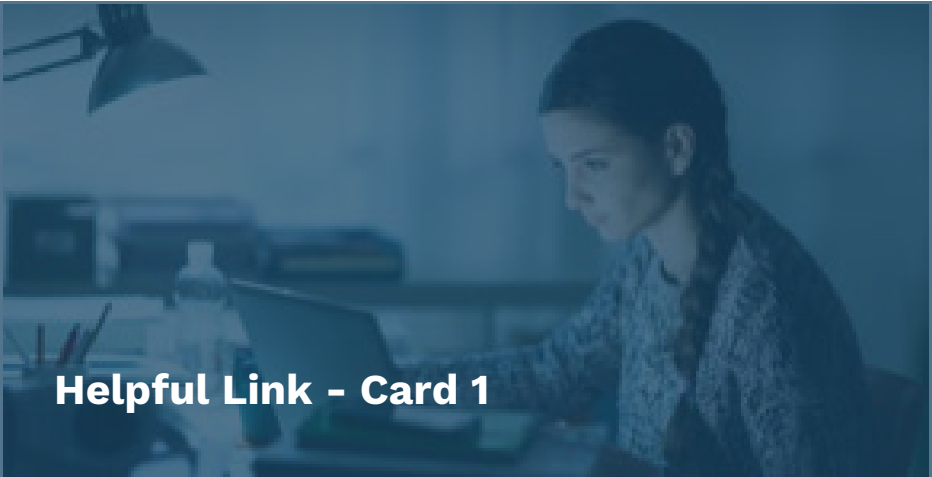

All photos require alt tags and proper metadata when being uploaded to Liferay.
