Introduction to the Logo

The visual identity is the outward expression of the My Career Advancement Account, or MyCAA, Scholarship. It uniquely and distinctively sets MyCAA apart from other programs. The logo is the primary element of that identity. However, other components play an important role in establishing the visual style:

- Color
- Typography
- Imagery

The artwork, combined with Gotham Medium as the primary typeface and Constantia Italic as the secondary typeface, is the official MyCAA logo.

Proper use of the logo and how it is combined with other graphic elements is described on the following pages.

Apply. Advance. Achieve.

Safe Area and Size

A safe area around the logo will ensure visibility and impact. As illustrated, the minimum safe area measures 1/2 the height of the logo.

				<u> </u>	4.10	~

x = height of logo 1/2 x = safe area

Use the safe area between the logo and other graphic elements such as type, images and other logos. This ensures that the logo retains a strong presence wherever it appears. Where possible, allow even more space around the logo.

The minimum acceptable dimension is 75 pixels wide at 72 pixels per inch.

Logo and Tagline Usage

The MyCAA logo is a horizontal layout that uses red and light blue primary type with gray secondary type on a white background. Two variations of the logo have been created, with and without the tagline. Using the official logo should always be a priority.

Option 1:

The preferred logo is placed on a white background. Use this option as an introductory element of the brand.

Apply. Advance. Achieve.

Option 2:

If the logo is used on a dark or heavily patterned background, it should be contained within a white square frame with a two-point stroke using a 50% tint value of neutral black (see color palette).

Incorrect Usage

Incorrect usage of the MyCAA logo can compromise its integrity and effectiveness. To ensure accurate and consistent reproduction, always use the approved digital artwork. Never alter, add to or recreate the logo.

- 1. Do not reconfigure or change the size and placement of the logo.
- 2. Do not stretch or squeeze the logo to distort proportions.
- 3. Do not crop the logo.
- 4. Do not add a drop shadow to the logo.
- 5. Do not change the logo colors.
- 6. Do not place the logo on a complex patterned background.
- 7. Do not place the logo on a neon or brightly colored background.
- 8. Do not place the logo on a busy photograph or background.
- 9. Do not recreate elements of the logo.

Color Palette

The primary MyCAA color palette consists of yellow, red and light blue with supporting colors of dark blue, gray and black.

MyCAA colors are equivalent to the Pantone® numbers listed here. For four-color process printing, use the cyan-magenta-yellow-black — CMYK values. For on-screen applications such as videos or broadcasts, use the redgreen-blue — RGB — values. For web applications, refer to the hexadecimal — HEX — values associated with each color.

Typography

The MyCAA brand uses two primary typefaces for publishing collateral materials. They are Bitter and Tahoma. When Tahoma is not available, Calibri should be used. When Bitter is not available, Cambria should be used.
