

# Military Service Uniform Guidance

Updated September 2023

## BACKGROUND

Contractors are required to adhere to all Defense Department policies, instructions and guidance surrounding military service uniforms and personal appearance regulations.

The military resources provided below are standard sources containing up-to-date information. Contractors must monitor these sources for updates and follow requirements for each service branch.

As uniform requirements change, contractors should update images and video, as directed, to reflect those changes within six months. This will allow enough time for photographs and video of service members wearing updated uniforms to be posted online at the approved military websites contractors depend on for image and video files.

*The images provided here were current as of the time of the review. Always consult the websites linked here to confirm accuracy of the current uniforms for each service to be sure they have not changed in the interim.*
