

Pre-Deployment

Account and Password Guide

Before deployment, you may want to give a trusted family member or friend the login information for important accounts. This may even be the same person who has your power of attorney to act on your behalf while deployed. Use the following as a guide for the types of information you might want to share. You may not want to provide access to all the items below—pick and choose carefully what and whom you share this information with. When you return, you should update your passwords to ensure safety and security measures.
