

SPOUSE EDUCATION &
CAREER OPPORTUNITIES

Launch Your Next Career Move With a Paid Fellowship

Through the Career Accelerator, a Spouse Education and Career Opportunities initiative, you can gain real-world experience and professional connections with paid 12-week fellowships across industries.

What You'll Gain

- A paid, full-time, 12-week fellowship
- A competitive stipend
- Hands-on experience with private-sector employers
- Professional training and mentoring
- Personalized SECO career coaching
- In-person or remote opportunities

How It Works

Apply to the Career Accelerator to be considered for fellowship opportunities aligned with your skills and career goals. Fellows are matched with a host employer in the U.S. or overseas based on education, experience and employer needs. Availability depends on host employer participation and may be more limited in overseas locations.

A Foundation of Success

The Career Accelerator builds on the success of a three-year pilot program:

1,000
*military spouses
awarded
fellowships*

79%
*received employment
offers after
completing their
fellowship*

\$70,000
*average salary
earned upon
employment*
